

# Visionet

## Rejuvenation of Digital Representation

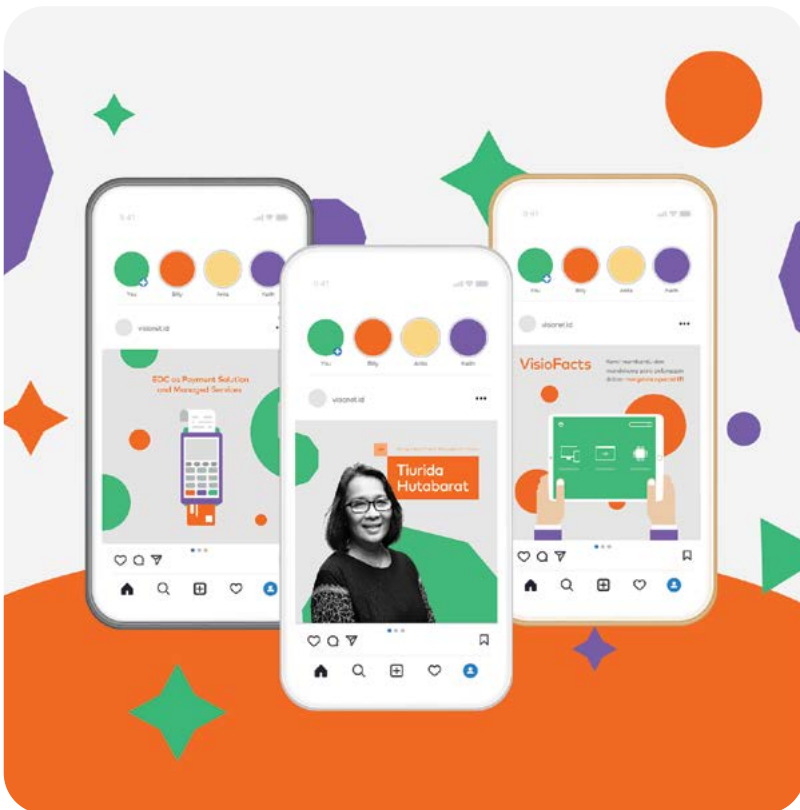

### Our services:

Digital &  
Social Media

We started Visionet's social media activation based on the three main content pillars, which are; maximum technology, one stop solution, and start-up spirit. The contents contain various information such as VisioFacts, product and service, news & event, activity highlight, and employee's testimony.

The new identity is more colorful, consists of a more modern graphics, and its relatability to the digital visualization rejuvenates the company's image.
